## ARIVA BIO-FAIRTRADE

Blend of top quality Arabica coffees from organic farming which were carefully roasted and processed for giving you a unique sensation. The Ariva BIO coffee was born out of the research and the passion of Omkafè for good things, which are made with heart and smile.

<b>COMPOSITION</b>	100% Arabica coffee
<b>ORIGINS</b>	Perù natural SHB, Bolivia washed Altura, Etiopia washed Sidamo
<b>AROMATIC HINTS</b>	Vanilla, citrus fruits, Honey
<b>CAFFEINE</b>	1,10%
<b>SELECTION AND QUALITY CONTROL</b>	The Omkafè panel of professional tasters selects and painstakingly checks all coffee batches, from purchase to sale.
<b>ROASTING</b>	Italian style slow roasting with traditional drum roaster. Laser analysis to check roasting inside the bean. Each product has its own specific recipe and roasting profile, to best deliver its aromas.
<b>PACKAGING</b>	We pack our coffee blends only when they reach the correct degree of roasting. To best preserve their flavour and freshness we add in our packs an inert gas, nitrogen, which blocks the ageing process, sealing the aromas and preserving them in time. Nitrogen is not an additive, it makes up nearly 80% of the air we breathe and, when the pack is opened, it immediately dissolves into the air.
<b>ENVIRONMENTAL PROTOCOL</b>	<ul style="list-style-type: none"> <li>• We use 100% renewable energy for the production of all coffee and intelligent energy management system.</li> <li>• Catalytic converter to reduce atmospheric emissions.</li> <li>• We use wrappings and bags with a low environmental impact.</li> <li>• We have dropped the aluminium content of our bags by 95% compared to traditional coupled aluminium packaging.</li> <li>• We are committed to fully differentiated waste disposal in every company department.</li> </ul>

**AVAILABE AS:**  
 1kg bags in beans  
 250g tins (In beans or ground for moka)  
 Pack of 50 Pods ESE standard
